

Zebra's QuikCard ID Solution™

Everything you need to print professional-quality cards

Set up your card-printing system and begin producing photo IDs in minutes with the Zebra® QuikCard ID Solution – no software expertise necessary. It includes everything you need to make professional-quality identification, security and commerce-related cards quickly, easily and cost-effectively.

Easy and complete solution

The feature- and value-packed kit includes:

- Full-colour, single-sided P110i™ or dual-sided P120i™ card printer, available with or without magnetic-stripe encoding
- Exclusive QuikCard ID Solution design software with templates for exceptionally easy and fast custom creation of various types of card including company ID and visitor cards, personalised retail loyalty and membership cards, and much more
- A USB digital webcam and mini tripod for capturing photo ID pictures
- A genuine Zebra supplies starter kit (one ribbon, 200 PVC cards)
- Two-year limited warranty

Ideal for:

- Corporate and institutional security ID cards
- Loyalty, membership and retail cards
- Student and faculty ID and library cards

Zebra QuikCard ID Solution

Value-class printer

- **Full-colour single-sided P110i or dual-sided P120i card printer**
- **Magnetic encoding and bar-code support:** Enhance the security and functionality of your cards with magnetic-stripe encoding and bar-code printing, ideal for access control, time-clock applications and more
- **Load-N-Go™ ribbon cartridge:** Easy to load, no need to feed or wind the ribbon. Also features a patent-pending, built-in cleaning roller to clean every card for improved reliability
- **i Series™ auto ribbon detection:** Automatically configures printer for optimised imaging and includes a ribbon-low warning indicator for convenience
- **LCD screen:** Easy-to-read 16-digit LCD provides operational and routine cleaning information
- **Small footprint:** Weighing just over 4kg and consuming minimal desk space, the P110i/P120i fits into any environment
- **Translucent cover:** Allows users to keep an eye on card supply without interrupting printing
- **Colour-coded touch points:** Blue touch points clearly show users which parts of the printer are safe to touch and help to simplify routine maintenance procedures

Note: Refer to the Zebra P110i or P120i card-printer datasheets for more detailed information and specifications.

QuikCard ID Solution software

- **Zebra card-design templates:** Easy-to-use template designs quickly allow creation of customised cards while avoiding the learning curve normally associated with card design software.
- **Zebra Template Designer:** Collection of standard card design backgrounds, logos and design elements (with associated datafiles) for quickly creating custom card designs by editing text, data and graphics of pre-designed cards – or create your own unique card design
- **Languages supported:** English, German, French, Italian, Spanish and Portuguese
- **Support for Excel® and CSV data import:** Connect your database to seamlessly import data for multiple card-production applications
- **Software features include:** Full-colour design capabilities (single- and double-sided cards); image acquisition (VFW, TWAIN, WIA, DS, File); printing variables (date/time, counters, concatenation and keyboard input); 1-D bar codes – complete library; magnetic encoding (ISO, JIS)
- **Professional software upgrade available:** Want even more design flexibility, database connectivity and security features? Instantly upgrade to Professional for multi-card layout, Microsoft Access® support, role-based, password-protected logins for multiple users and other advanced card design features

USB digital webcam

- **Logitech® webcam 3000 for business:** Capture quality images with the user-friendly webcam with mini tripod. Just insert camera USB cable into a computer USB port for plug-and-play connection

Specifications

- High-quality VGA video (640x480 pixels) and still image capture
- High-speed USB 2.0
- USB cable (1.8m)
- Adjustable universal clipbase and tripod socket with mini tripod

System requirements

- CD-ROM drive
- Three powered USB 2.0 ports (powered USB 2.0 hub required if using external USB ports)
