

Press Release. 18<sup>th</sup> May 2007

## **THE GOTIVE SQ31 - THE SPIRIT OF MOBILE COMMUNICATIONS!**

Spirit Data Capture Limited has announced a new, compact but very rugged mobile wireless communicator – the Gotive SQ31. Spirit has the UK and Ireland distribution rights for Gotive products. This latest solution incorporates both a bar code reader and a versatile Voice over Internet Protocol (VoIP) phone.

The Gotive SQ31 fits easily in the palm of a hand, and is powerful yet easy to use, with an intuitive navi keypad. It incorporates an Intel Xscale PXA270 processor with 128MB RAM and 256MB Flash memory, and uses a Windows CE 5.0 operating system.

The new device can be used in a wide range of environments – from dusty warehouses through to sophisticated boutiques. It is ideal for both indoor or outdoor applications, due to its direct sun readable LCD display (complete with touchpad) and its in-built resistance to different weather conditions.

The SQ31 provides wireless (802.11b) communications and comes with a range of groupware accessories for handling the device (including a pistol grip) and for organised storing and charging.

Ebbie Khadem, Spirit's Managing Director, comments: "This latest Gotive may be small, but it packs a powerful punch! It's a highly versatile device that is a joy to use, and will be a real asset to mobile workers in a wide variety of market sectors."

ENDS

**Notes for Editors:** Spirit Data Capture is based in Preston Brook, Cheshire. The company is an independent mobile computing and data capture house, with in-depth knowledge of the latest wireless and mobile computing technologies which boost productivity and profitability.

Spirit's capabilities include software application development, mobile computing technology (e.g. rugged mobile computers), wireless network implementations, maintenance and other services. Its extensive client base includes a diverse array of organisations in the utilities, field service, transport and logistics, healthcare, government and manufacturing sectors.
